Chleainsaid Wind Farm

TITLE: Figure 6.1.11:
Creag Riabhach (Under construction)
Comparative ZTV

REV 00

Notes:
The ZTV is calculated to turbine tip height from a viewing height of 2 m above ground level. The ZTV extents for all wind farms are based on SNH guidance (Visual Representation of Wind farms, SNH, 2017).

The terrain model assumes bare ground and is derived from OS Terrain 5 height data (obtained in September 2021).

Earth curvature and atmospheric refraction have been taken into account. The ZTV was calculated using ArcMap 10.8.1.
