

ESB Energy EV charging sites required nationally

ESB Energy, part of the ESB Group, is seeking site opportunities to install 100% renewable electricity EV chargers on your land or property, working together to achieve a brighter net zero future across Great Britain.

We have been developing electromobility solutions since 2010 and operate over 2,000 public charging points across the UK and Ireland. We can provide a fully bespoke EV solution for you, specific to your needs.

Why work with us?

- ✔ **Trusted, stable, long-term partners** – providing **landlord** with **investment income**
- ✔ **Fully funded** turnkey solution by ESB Energy including **project management and hub delivery**
- ✔ Design, grid connection & planning permission (if required) - **applications managed by ESB Energy**
- ✔ **20/25-year lease term**, with **asset refresh**
- ✔ **Marketing campaign** to launch EV charging site
- ✔ Share of **revenue generation** available
- ✔ **Maintenance, System & 24/7 Contact Centre costs borne by ESB Energy**
- ✔ Proven knowledge **with high profile partners** including TfL, Tesco Ireland, Coventry City Council and Birmingham City Council

Site Requirements

Land to develop - 0.2 - 0.8 acres;
other sizes will be considered

Existing sites - space for at least 4 charging/parking bays and chargers

Sites with adjacent facilities are preferred:
Cafés, restaurants, retail etc

Busy arterial roads - easy access from a Motorway or 'A' Road

Preference for access to charging bays 24/7

The Benefits of partnering with ESB Energy

Freehold purchase of land – synergies with food/restaurant operators

Lease of up to 25 years with an indexed rent

No upfront costs to the landlord – all costs are covered by ESB Energy

Increased footfall and dwell time to site from customers using the EV chargers

360 degree continuous maintenance, management and marketing of charging sites

Best in class future-proofed technology, with up to 350kW super charging power per charger

Open network for all brands of EVs

Powered by 100% green energy

High availability with excellent 24/7 customer service
